Marco Milad Mankaruios — Software Engineer

Cairo, Egypt • +20 102 003 1212 • miladmarco68@gmail.com
linkedin.com/in/marco-milad-engineer • github.com/marco-milad • theintern.app

Professional Summary

Product Engineer at TheIntern.app (Claude for Startups) with 10 production deployments across 6 industries. Ship Web, iOS, and Android from 1 shared codebase using React.js, Next.js, TypeScript, and FastAPI. Built bilingual RTL platforms across 4+ countries; ranked a product to Google page 1, resolved incidents blocking 75% of sign-ins, and cut delivery time by 30% through AI-assisted engineering.

Professional Experience

TheIntern.app — Cairo, Egypt
Product Engineer — AI job-simulation platform (Web • iOS • Android) — *03/2026 – Present*

- Led product end to end: 1 FastAPI backend (204 endpoints, 28 routers) serving Web, iOS, Android, and admin
- Ranked the site to Google page 1 for "internships in Cairo": SSR pages, JobPosting schema, bilingual guides
- Resolved OAuth failures that blocked 75% of sign-ins under 4-worker load by moving state to a shared KV store, reducing the failure rate to 0%
- Built a 3-tier self-healing LLM fallback chain; validated by reproducing the outage across 3 failure scenarios
- Secured student CVs with signed, expiring, viewer-bound URLs; locked 5+ internal services to the server
- Rebuilt sign-up after tracing 2 silent mobile blockers: account-first flow, Arabic major picker, funnel tracking
- Scaled to 1,000+ automated tests gating every release; EN/AR/FR with full RTL across all 3 platforms
- Selected for Anthropic's Claude for Startups (Oct 2026); shortlisted among top 5% for the FDC Stars Challenge
- Stack: React 18, Vite, Tailwind, FastAPI, PostgreSQL, Groq LLMs, Capacitor, Stripe, nginx, AWS, i18next

elama.ai — Cairo, Egypt (Remote)
Software Engineer (Product Engineer) — *03/2026 – Present*

- Engineering AI-powered web and mobile products for 3+ enterprise clients across MENA real estate, automotive, and hospitality — from architecture to deployment

Triple Vision Agency — Cairo, Egypt
Software Engineer — Front-End Developer (Part-time) — *11/2025 – Present*

- Sole developer for 7 international clients: 9 production projects delivered, 40+ reusable components per project
- Cut average delivery time by 30% through AI-assisted workflows (Claude Code + Cursor)

Selected Projects:

- **Ray Lab Group** — *2025*
  7-page healthcare site: 6 brands, 3 countries, SSR on Cloudflare Workers
- **M.M Bags** — *2025*
  E-commerce: 12 admin surfaces, bilingual RTL, PDPL compliant (Next.js 16, Supabase)
- **Mogohrat Lotfy** — *2025*
  Jewelry ERP: karat pricing, serialized inventory, B2B ledgers, RBAC (Next.js 14)
- **Ojos Studio** — *2025*
  5-page agency site, 30+ components; **IMRSIV** — 3-service MENA SPA, 8+ sections

Information Technology Institute (ITI) — Cairo, Egypt
Front-End Development Trainee (Part-time) — *07/2025 – 01/2026*

- Built eBay Clone: 7+ features, 5+ integrations including Stripe, 3-module admin panel
- Built Moviee App: 1,000+ movies, Redux state management, Axios, REST API

DEPI Egypt — Digital Egypt Pioneers Initiative — Cairo, Egypt
Mobile Development Intern — *08/2024 – 01/2025*

- Completed the DEPI mobile development program; shipped 2 React Native projects as capstone deliverables

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript ES6+, Angular, Tailwind CSS, Framer Motion, RTL, i18next
Backend and Databases: FastAPI (Python), Next.js Server Actions, Supabase, PostgreSQL, REST APIs
Mobile: Capacitor (iOS and Android), React Native, FCM, APNs
AI and LLMs: Groq, multi-model fallback chains, structured AI generation, prompt engineering, Claude Code
SEO: Server-side rendering, JobPosting structured data, Google Search Console, sitemaps
Tools and DevOps: Git, GitLab CI, Vite, Zustand, TanStack Query, Puppeteer, Stripe, Figma, nginx, AWS EC2
Deployment: Vercel, Cloudflare Workers (SSR), Capawesome Cloud, Fastlane, TestFlight, Google Play, App Store

Certifications & Education

Claude 101 — Anthropic Education — April 2026
Claude Code in Action — Anthropic Education — April 2026

Bachelor of Information Technology — Faculty of Computers and Information, Assiut University — 2020 – 2024
